PROFESSIONAL SUMMARY

Full-stack developer with 10+ years designing and building interactive experiences. I'm now looking for greater challenges as I seek to bring my years of business development, building client relationships, strategic thinking, and problem solving to my development career.

EXPERIENCE

ES99 - LEAD DEVELOPER

Chicago, Illinois Dec 2017 - Present

Full-Stack Developer role which called upon my extensive development experience in project leadership, and client interaction to drive seamless implementation on projects with members of cross-functional teams from design to development. Provided leadership and direction on multiple projects to team of seven developers on over fifteen projects.

- Delivered multiple websites with variety of functionality, including complex UI and third-party API integrations
- Developed front-end and back-end using Javascript, React, Sass, HTML, CSS3, PHP
- Collaborated with leadership and cross-functional teams to assure proper implementation of project and business goals
- Interfaced with clients to identify project goals, overcome hurdles, and preserve client objectives in final deliverables, and build lasting relationships
- Standout projects:
 Associates In Nephrology (ainmd.com)
 Badger Paperboard (badgerpaperboard.com)
 Lucien LaGrange (lucienlagrange.com)

CODING DOJO

Chicago, Illinois 2017

Intense 70-90 hr/week professional development program to elevate developer skills in 3 full stacks. Competed numerous full-stack apps using select languages and frameworks, creating servers, databases, and front-ends. Collaborated with other directly and through GitHub to plan and develop larger projects including MVP version of AirBnb website.

- Developed multiple apps, front-end and back-end, in three separate stacks: Python, C#, and MEAN
- Completed ground-up clone of AirBnb website using MEAN

ANIXTER, INC. - SENIOR GRAPHIC DESIGNER

Glenview, Illinois 2014 - 2016

Senior member of the in-house marketing department of a global technology supply company. Commended for meticulous attention to detail, unique solutions to problems, and quick turn-around.
